

## On the Subject of Wavetapping

Perhaps the craziest conference call I've ever heard. Don't hang up. DO NOT HANG UP.

- This module contains a 11x11 pixel display, a 4x4 display to the right of that, and a submit button up top.
  - You are required to enter a specific pattern based on the color of the 11x11 display.
  - This manual does not disarm the module, but gives instructions on how to input each of the 158 patterns.
  - If this manual has an incorrect instruction for a pattern, please ping @Danny7007#7431 on Discord so I can correct the manual :)
- NOTE:** Since no pattern contains pixels in the first and last columns and rows, "a" represents the second column and "i" represents the 10th, while 1 represents the second row and 9 represents the 10th.
- You also might want to check your pattern before you submit it because this is prone to error.

### Section 1A: Red:

1. a9 b79 c579 d3579 e13579 f3579 g579 h79 i9
2. a8 b8 c689 d69 e6789 f69 g689 h8 i8
